PROJECTS

AI Energy Optimizer GitHub

- Developed an AI-powered energy optimization platform using Python, Streamlit, Flask APIs, and Scikit-learn to monitor and analyze real-time energy consumption with simulated sensor and weather data.
- Built a Random Forest regression model to forecast energy usage, enabling data-driven optimization strategies and estimating potential energy savings with performance analytics.

Email/SMS Spam Classifier GitHub

- Built an end-to-end NLP spam detection system using Python, Scikit-learn, NLTK and TF-IDF vectorization to classify SMS and email messages.
- Achieved 97% accuracy and 100% precision after evaluating multiple ML models and deployed the solution using Streamlit.

WhatsApp Chat Analyzer GitHub

- Developed a chat analytics application using Python and Pandas to analyze messaging trends, activity patterns and user interactions.
- Generated timelines, word clouds, heatmaps and activity visualizations using Matplotlib and strengthened practical data analysis skills.

TECHNICAL SKILLS

Programming: Python, C, Java, SQL
Machine Learning: Scikit-learn, NLP, TF-IDF
Data Analysis: Pandas, NumPy
Visualization: Matplotlib, Seaborn
Tools: Git, Streamlit, Jupyter Notebook
Core CS: DSA, DBMS, Operating Systems, Computer Networks

LEADERSHIP & EXPERIENCE

Department of Computer Science & Engineering, BV(DU)COEP *Sep 2024 – Sep 2025*
Co-Head

- Led and coordinated 5+ technical and non-technical initiatives involving more than 200 students while managing departmental events.
- Strengthened leadership, communication, teamwork and organizational skills through academic coordination responsibilities.

GeeksforGeeks Student Chapter, BV(DU)COEP *Nov 2023 – Sep 2024*
Student Coordinator

- Organized workshops and peer-learning sessions on programming, DSA and problem-solving concepts.
- Guided students through collaborative learning activities to improve coding and analytical thinking.

EDUCATION

Bharati Vidyapeeth (Deemed to be University), Pune *2023 – 2027*
B.Tech in Computer Science and Engineering
CGPA: 9.28

Gyan Bharti Residential Complex *2022 – 2023*
class XII, Science
Percentage: 79.4%

Gyan Bharti Residential Complex *2020 – 2021*
class X
Percentage: 94.6%

CERTIFICATIONS

NPTEL Database Management Systems – IIT Kharagpur
NPTEL Theory of Computation – IIT Kanpur
